

# PYRAMID BENCH 11

PRODUCT FACT SHEET

## PYRAMID BENCH 11

DESIGN BY WIM RIETVELD, 2017

Created to be adaptable, light and strong, the Pyramid Benches are the last word in cutout sheet steel construction. Originally created by Wim Rietveld while working at Ahrend in the 1950s, the collection has been relaunched by HAY together with Ahrend. When initially launched in the '50s, it was regarded as a triumph in its innovative use of sheet steel, giving new direction for use in organically shaped products. Today, both as individual pieces and as a collection, it is notable for its sparing use of materials, simplistic construction and for being light enough to move around. These lasting designs manifest functional excellence and aesthetical lightness that have been proved in real environments over several generations. This bench variant features a steel-sheet base with a rectangular oak top, sharing the same functional and uncluttered expression as the rest of the Pyramid collection. The bench's light, stackable design and hardwearing quality make it suitable for being used in educational institutions and corporate environments. Available in a variety of wood finishes and base colours, it can be used as low side table or as a bench.

### HIGHLIGHTS

- Multi-functional family of tables and benches in different shapes, sizes, materials and colours.
- The bench features a solid oak benchtop with steel-sheet legs. Support bar pre-mounted underneath the benchtop.
- The bench is available in 2 variants (Pyramid Bench 11 and 12).
- The table is available as a rectangular table (Pyramid Table 01 and 02), a round table (Pyramid Café Table 21 and Pyramid Coffee table 51) and a square table (Pyramid Café table 21).
- The table (Pyramid Table 01) and bench (Pyramid Bench 11) are stackable with up to 5 pcs.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

## **SUSTAINABILITY**

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
