

wästberg / w 126 claesson koivisto rune

Product Information

Historic industrial design icons, such as Starship Enterprise or Citroën's steering wheel, were inspirational when designing the w 126 uplighter. Admittedly, two quite technical examples, but this is a lamp that demanded both highly advanced engineering and a bit of iconicity.

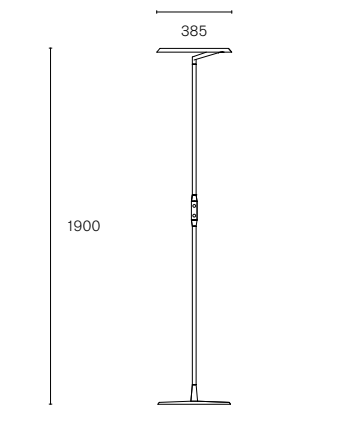

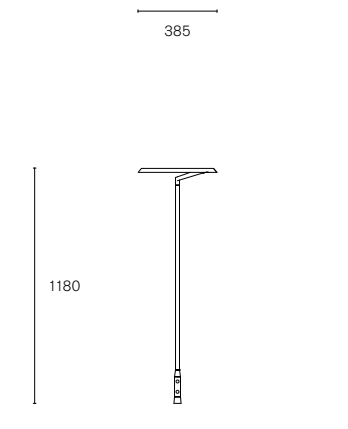

Two powerful and separate LED light sources, one up and one down, with separate dimming, allows you to set the light to any desired ambience. No need for a manual. Two simple touch buttons makes operating intuitive.

This lamp does not fly through outer space, nor does it roam the highway, but it stands in an architectural context. Significant in expression, yes. But reduced in form and shape to feel at home in your room, whether in an office, hotel or at home.

Design: Claesson Koivisto Rune

Material	The shade, dimmer housing and base are made of die-cast aluminium. The tubes are made of extruded aluminium.
Powerful integrated LED	The powerful, 9.000 Lumen lighting technique is based on 250 highly energy-efficient, high quality LEDs, which give a warm white light.
Dimmable	The light is individually dimmable upwards and downwards with two separate dimmer buttons.
Diffuser	A superior light diffuser material with low light absorption gives an even, glare-free and efficient light.
Indirect light	The lamp gives an indirect light by being lit upwards.
Direct light	The lamp gives a direct light by being lit downwards.
Flicker-free light	w 126 claesson koivisto rune provides a flicker-free light.
Multiple mounting options	w 126 claesson koivisto rune is available with a base or a pin.
Flat pack	w 126 claesson koivisto rune features a clever system of micro-connectors, which allow the lamp to be easily assembled from flat pack.

Product name	w126 claesson koivisto rune f	w126 claesson koivisto rune p				
Dimensions (mm)						
Model	Floor lamp	Table lamp				
Mounting	Free-standing	Pin – integrated (cut-out Ø 24 mm)

Wästberg is a Swedish lighting company aimed at bringing back light to human proximity, by restoring the private spheres man has been deprived of during decades of misguided pursuit of efficiency and standardisation. The universally acclaimed lamps are created in close collaboration with some of the world's most renowned architects, designers and lighting experts, and have earned prestigious awards for their combination of aesthetics, cutting-edge technology and resource conservation.
