

GEORG STOOL

Designed by Chris L. Halstrøm

The Georg collection is inspired by the need to store, hang and drop things off in the hallway of a home. The stool is a back-up seat designed in a material encounter between wood, wool and leather in an expression in between Nordic sensuality and Japanese minimalism. The stool is a piece of furniture in its own right - because why not use the back-up furniture instead of storing it out of sight?
