Cover Counter Stool

"Cover is born from a desire to create a comfortable and contemporary armchair in wood. I aimed for a crisp and vivid expression in the plywood while looking for a solid and grounded look in the frame and base of the chair. Three years of play and hard work in the making has resulted in a light, yet strong armchair, playing and taking the molded veneer to its extreme."

Country of Production	Romania
Preassembled	Yes
Description	With its curved backrest that folds elegantly around its back legs and ties the design together, the Cover Counter Stool challenges the possibilities of veneer through a forward-thinking approach, echoing the ideas of Scandinavian design. The design is lightweight and features a tall, enveloping back for extensive comfort that allows one to be seated in its seat for hours on end, be it for a dinner, a drink or even working at a counter desk.
	The Cover Series without upholstery is EU Ecolabel Certified. By carrying the EU Ecolabel Certification, the product is guaranteed to have a reduced environmental impact throughout the total lifecycle of the product from raw material to disposal.
Material	The Cover Counter Stool is made from form-pressed wood. The wood is folded over the chair's legs and backrest. This technically innovative wood layering helps lock the elements of the chair together. Upholstered seats with textile, imitation leather, or leather. Leather from selected premium leather suppliers.
	Back and seat in oak veneer, solid oak frame and legs. Made using FSC™-certified (FSC-C028824) wood. Water-based lacquer. Footrest protector for bar and counter stool in tumbled stainless steel. Plastic glides.
	Oak veneer and Stained Dark Brown: slight color variations can occur due to the inherent characteristics of the material.

Cleaning & Care	Clean with a moist cloth first and wipe off excess liquid with a dry cloth.
	Upholstered versions: Textile: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean, warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water. We highly recommend that you go to kvadrat.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.
	Imitation Leather: Clean with lukewarm PH-neutral, soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterward.
	Leather: As a natural material, leather requires looking after. If you care for the leather correctly, it will become even more beautiful over time.
	Refine Leather, Easy Leather, and Endure Leather: Clean leather with a dry cloth regularly. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com for further information on cleaning leather.
	Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water; otherwise, the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products, such as saddle soap, leather cleaners, or household products.
Spareparts	Pre-mounted plastic glides. Felt glides available as made-to-order. Self-mounted footrest protector in stainless steel available as spare part. Premounted footrest protector in stainless steel available as made-to-order.
