

# REVOLT CHAIR

DESIGN BY FRISO KRAMER

Originally created by Friso Kramer while working at Ahrend in the 1950s, the Revolt Chair has been relaunched by HAY together with Ahrend. One of Friso Kramer's most famous designs, the Revolt Chair embodies his distinctive minimalist style; a revolutionary design and choice of materials that uses a bent sheet steel frame instead of a traditional tubular frame. Reproduced today using the same process, the chair retains the functionality and resilient construction of its mid-century precursor, but in a sustainable material choice comprising a mix of recycled post-consumer and virgin ABS material in different colour options. A dynamic and flexible chair, Revolt's ergonomic design moves with its user, offering active support while working, eating or sitting in conferences. Its comfort, durability and timeless aesthetics make it suitable for using in a wide variety of private, corporate or public spaces.

## PRODUCT DETAILS

- / Relaunch of a design classic originally designed in 1953.
- / Now with a higher sustainable profile.
- / Mix of recycled post-consumer and virgin ABS material for seat & back.
- / A new family member to the Result Chair.
- / Dynamic and flexible chair offering support and extreme comfort.
- / Sheet metal frame creates a strong and lightweight construction.
- / Available in various shell colours and frame finishes.
- / Suitable for a wide variety of private and public environments.
- / Qualified for contract use.

# HAY
