MUUTO

LINEAR SYSTEM SERIES

"The Linear System Series places people at its center, being a space to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. With its warm materiality and modern expression, the Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging, even if being there only for a little while." — Thomas Bentzen

MATERIALS

Table frame and legs in solid oak. Tabletop in oak, black nanolaminate or white Laminate.

Screens in solid oak and oak veneer with powder coated aluminum fixing knobs.

Tray - 170 cm in solid oak and oak veneer. Tray Ø24 and Tray Ø36 in solid oak, all with powder coated aluminum fixing knobs.

PRICES

Available upon request.

ASSETS

BRINGING FEELINGS OF HOME AND MODERN FUNCTIONALITY TO TODAY'S WORKPLACE, HOSPITALITY SPACE AND EDUCATIONAL INSTITUTIONS

The Linear System Series brings a new perspective to the evolving needs of the modern workspace, hospitality settings and educational institutions through its configurable design across tables, lighting, screens and trays alongside its custom integrated power solution, allowing one to tailor the design to the exact needs of any space.

Designed in the traditionally Scandinavian material of oak, the design brings feelings of home and familiarity to any space. Through its configurability, the Linear System Series can be used to create larger settings as well as intimate, smaller spaces for both solo-working and collaborative sessions.

The lighting designs for the system can be used to enhance the atmosphere while providing functional lighting for the desired setting and purpose. All Linear Lamps are dimmable.

Screens and trays are available in various sizes and are mounted into the ridge that runs down the tabletop, allowing for them to be shuffled around as functional and aesthetic needs evolve.

When configured with tables, lamps, screens and trays, the Linear System Series hints towards the archetypal library settings where users can sit down in a temporary yet personal workspace while still having a sense of atmosphere as part of a larger space.

THOMAS BENTZEN ON THE DESIGN:

"The Linear System Series places people at its center, being a space to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. With its warm materiality and modern expression, the Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging, even if being there only for a little while. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose of the modern workplace as well as hospitality settings and public areas, marrying the ideas of aesthetic and function into one."

ABOUT THOMAS BENTZEN

Thomas Bentzen founded his own studio in 2010 with his design receiving international recognition at fairs and exhibitions across the world. Bentzen is firmly rooted in the Danish design tradition, emphasizing material knowledge, craftsmanship and rational industrial manufacturing processes. With simple and narrative designs, he creates functional and meaningful products for everyday life.

ABOUT MUUTO

Muuto is rooted in the Scandinavian design tradition characterized by enduring aesthetics, functionality, craftsmanship and an honest expression. By expanding this heritage with forward-looking materials, techniques and bold creative thinking, our ambition is to deliver new perspectives on Scandinavian design.
