Muller Van Severen was founded
in 2011 by Belgian artist duo Fien
Muller and Hannes Van Severen.
The couple has always been on
an inspired quest for sculpturally
interesting furniture objects,
and their work sits somewhere
between design and art, drawing
on their passion for architecture
and materials. They have won
countless awards and collabora-
ted with prestigious international
museums and galleries.

ARCS VASE AND CANDLEHOLDER

For HAY, Muller Van Severen has designed the Arcs Shades, Arcs Vases, Arcs Candleholders and Two-Colour Tables.

A shared love of colour and materials is often the inspiration behind many of Muller Van Severen's designs. The designer duo is constantly seeking new ways to present the natural beauty of the materials they use, striving to give the materials their own distinct presence, as showcased here in the Arcs Candleholder and Vase.

Expressive and modern colours are chosen to accentuate the shape of the Arcs Candleholder and Vase. The designs are formed by a unified chain of vertical arcs that create an elegant, scalloped silhouette.

Mix and match the colours and models to create unique compositions.

Made in stainless steel with a mirrored finish or steel in different colours.

Arcs Candleholder is crafted in zinc alloy, and comes in two different heights with various colour options that include pastel, bright and mirrored finishes.
